

APPLAUSE

CELEBRATING OUR ALUMNI

Barrie Spang '90 is an accomplished interior designer. After receiving her degree in Art History from Lake Forest College, Barrie attended the Cleveland Institute of Art where she studied drafting and drawing. In 1996, Barrie was accepted to the Attingham Trust Summer Program in London, England where she studied 19th Century Decorative Arts and Architecture. Today, she is a designer with Lee Meier Interiors in Rocky River, Ohio and was recently asked by the Ohio Design Centre to speak on Color to the general public as part of their "First Fridays" program.

In her spare time, Barrie devotes her time to non-profit organizations. She currently sits on the Board of Directors of The Eliza Jennings Senior Care Network and serves on their Quality Assurance and Development Committees. In addition, Barrie volunteers her time to The Achievement Centers for Children where she served on their Young Friend's Board for over ten years. Barrie is also currently active on the Lake Ridge Academy Alumni Council and enjoys being back in touch with so many alumni.

Barrie resides in Rocky River with her dog, Oliver. She enjoys cooking, entertaining, reading, movies and getting together with friends.

You can check out Barrie's blog entitled The Designing Life at www.barriebriggsspang.blogspot.com.

Reunion Weekend

Megan Haserodt '07 is a junior at Hope College where she is pursuing a degree in Geology and Chemistry with a minor in Environmental Science. Valedictorian of her class at Lake Ridge Academy, her academic success continues to be recognized with numerous awards. She is the recipient of the Hope College Geology Award, the Michigan Campus Compact Community Service Award and most recently, the National Oceanic and Atmospheric Association's (NOAA) Hollings Scholarship.

The NOAA awards 100 undergraduate students each year with a scholarship to further their academic studies in NOAA science, research, technology, policy, management and education activities. Megan will be attending the orientation and conference in Maryland in May followed by an internship studying air quality/atmospheric chemistry aboard a NOAA research vessel off the coast of California. She intends to pursue a career in hydrogeology or some sort of water quality work.

When she isn't studying, Megan takes pleasure in hiking, backpacking, kayaking, rock climbing, intramural water polo and being a volunteer naturalist.
